By providing opportunities inside and beyond the classroom, our High Potential Learning Program transforms high potential into high performance.

Leadership

Leadership, team building, commitment and resilience are life skills that students develop through a range of leadership programs from Years 7-12. Leadership opportunities offered to students include representing their Year Group on the Student Representative Council, participating in the Peer Support program or developing their leadership skills during the annual Curriculum Camps. Leadership opportunities culminate in Year 12, with the election of a range of Captains: School, Sports, Arts, Environment, Service, House Captains and Captains of Activities.

Experiential and Outdoor Education

Outdoor Education programs are a vital part of a Redlands education aiming to enhance students' perceptions of their abilities, improve self-confidence, add to essential life skills and develop a deep respect for the natural environment through our annual Year Group camp program.

The Redlands High Country Campus in Jindabyne in the Snowy Mountains region offers the greatest array of possibilities for both curriculum fieldwork and experiential learning. In Year 9, students spend a term at the High Country Campus in the Moonbah experiential learning program and in Year 10 students may also elect to attend Winter School at the High Country Campus during Term 3, where they combine snowsports training with the academic studies. In Year 10, students travel to North-East Arnhem Land in a week-long indigenous cultural immersion program with the Yolngu people, run by Culture College. In addition, all students from Year 9 onwards have the opportunity to participate in the Duke of Edinburgh's International Award.

在卓越学术的基础上，我们通过完善的关怀辅导体系、广泛的体育与表演艺术项目、户外教育和志愿服务机会，培养全面发展、自信且具有同理心的年轻人，赋予他们在未来世界中发挥积极影响、贡献社会的能力。
